Yields & Distribution Rates

Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. The Fund's past performance is no guarantee of future results. Investment return and principal value of Fund shares will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than the quoted return. Performance less than one year is cumulative.

Funds listed below include only those paying monthly distributions.

Yields as of Feb 29, 2024 and Distribution Rates as of Mar 27, 2024, unless otherwise indicated.
