Core Bond Strategy

Investment Overview

Our team-based approach integrates our relative value philosophy, risk budgeting framework and fundamental security analysis.

- Leverages broader fixed income platform resources for fundamental research, quantitative analysis, risk management and trading
- We seek to gain from the credit-risk premium while emphasizing loss avoidance.
- Our process combines top-down macro assessment with bottom-up fundamental analysis, targeting active risks to sector allocations, security selection and interest rate management.
- The strategy has historically generated competitive relative risk-adjusted performance as well as low excess return correlation with most other core managers.*

Portfolio Construction

Constantly aware of potential upside/downside capture positioning relative to benchmark

- Diversified portfolio of 100 to 140 issues
- Credit quality of BBB- or better with average AA+ rating
- Duration target: +/-20% vs. benchmark
