Higher Volatility in 2024 May Present Attractive Entry Points for High Yield Bonds

KEY POINTS

 As global central banks near the end of a historical cycle of tightening monetary policy, we believe a moderate recession is a more probable outcome in 2024.
Increasing dispersion in valuations across rating segments, sectors and individual issuers will continue to provide opportunity and the ability to capture attractive entry points.

3. We have maintained our cautious positioning and continue to prefer defensive sectors that trade wide of historical norms, such as health care, given the sector's historically defensive characteristics.

Brazilian Economy Boosted by Reasonable Government Legislations and Tight Monetary Policy

By: Paul Psaila | February 5, 2024

KEY POINTS

 A year into President Lula's term, the political and economic situation in Brazil is better than many had expected.
The economy will likely grow more than expected as interest rates continue to fall.
We believe Brazil remains cheap compared to other emerging markets with lower inflation and rates acting as a tailwind for growth.
