2024 Outlook: High Yield Bonds

By: Stephen C. Concannon, CFA, Will

Reardon | December 6, 2023

Higher Volatility in 2024 May
Present Attractive Entry Points
for High Yield Bonds

KEY POINTS

- 1. As global central banks near the end of a historical cycle of tightening monetary policy, we believe a moderate recession is a more probable outcome in 2024.

 2. Increasing dispersion in
- valuations across rating segments, sectors and individual issuers will continue to provide opportunity and the ability to capture attractive entry points.
- 3. We have maintained our cautious positioning and continue to prefer defensive sectors that trade wide of historical norms, such as health care, given the sector's historically defensive characteristics.

- 3. We believe Brazil remains
 cheap compared to other emerging
