## Refinitiv Lipper Fund Awards as of November 30, 2022 based on risk adjusted returns.

The mutual funds shown may have experienced negative performance during one or more of the time periods represented by the Refinitiv Lipper Fund Award. For the Fund's performance as of the most recent month-end, please refer to the Eaton Vance [Performance page](#) and the Morgan Stanley Investment Management [Performance page](#). Past performance is no guarantee of future results.

The MSIFT Core Plus Fixed Income Portfolio and MS Mortgage Securities Trust have received proceeds related to certain nonrecurring litigation settlements. If these monies were not received, any period returns which include these settlement monies would have been lower. These were one-time settlements, and as a result, the impact on the net asset value and consequently the performance will not likely be repeated in the future. Rankings for the fund were more favorable due to these settlements and ratings may also have been positively impacted. Please visit [www.morganstanley.com/im](http://www.morganstanley.com/im) for additional details.

Source: The *Refinitiv Lipper Fund Awards*, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers. The *Refinitiv Lipper Fund Awards* are based on the *Lipper Leader for Consistent Return* rating, which is an objective, quantitative, risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest *Lipper Leader for Consistent Return (Effective Return)* value in each eligible classification wins the *Refinitiv Lipper Fund Award*. For more information, see [www.lipperfundawards.com](http://www.lipperfundawards.com). **Risk Considerations:** There is no assurance that a mutual fund will achieve its investment objective. Funds are subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and that the value of fund shares may therefore be less than what you paid for them. Market values can change daily due to economic and other events (e.g. natural disasters, health crises, terrorism, conflicts and social unrest) that affect markets, countries, companies or governments. It is difficult to predict the timing, duration, and potential adverse effects (e.g. portfolio liquidity) of events. Accordingly, you can lose money investing in these funds. Click on fund name above for more information.
