For forward thinking investors.

At Eaton Vance, we look to the future to help you stay ahead of the markets today. We are a global asset management firm that believes in extensive research with a focus on intelligent downside risk management and we offer a network of specialised investment teams engaged across asset classes.

These teams include Eaton Vance Management, Calvert Research and Management (Calvert), Parametric Portfolio Associates LLC (Parametric), and Atlanta Capital Management LLC (Atlanta Capital). Each team offers their own specialised expertise and a unique perspective.

Parametric has been widely recognised for its focus investment discipline and has long provided systematic solutions fueled by investment science. The team has had a presence in Australia since 2011, custom-fitting equity portfolios to help Super Funds achieve their Investment Vision. With a focus on implementation and tax efficiency, Parametric employs a collaborative, research-driven approach. The team's offerings include Tax-Managed Centralised Portfolio Management, Tax-Managed Indexing and Factor Investing solutions, as well as Emerging Markets and Defensive Equities solutions.

Across our teams we serve professional investors with innovative strategies and services. We have a long track record of helping professional investors prepare for market-cycle complexities with a strategic, proactive approach. This progressive mindset helps professional investors position themselves for success in today's fast-changing world.

EXPERT INSIGHTS

[Markets and Economy](#)

[Start of Tightening Cycle Signaled by Hawkish Powell Comments](#)

January 27, 2022

Boston - The January 25-26 meeting of the Federal Open Market Committee resulted in a general statement that was fairly neutral. Fed Chair Jerome Powell's hawkish comments were what prompted the market response, with yields rising significantly more at the front end — resulting in a big curve flattening — although yields were up across the curve. The U.S. dollar strengthened and equities moved lower in a risk-off environment.
