

# Large-Cap Value Strategy

## Investment Overview

The Value Team employs an Opportunistic Value approach, seeking companies trading at a discount to their intrinsic value, using a strategy offering consistent value exposure that does not sacrifice quality.

- We emphasize independent bottom-up, fundamental research.
- We seek leading companies that are mispriced, out of favor, or misunderstood by the market, and identify them by using a culture of ownership and debate within the Team. Leading companies exhibit:
  - Robust and sustainable business models with strong returns on capital
  - Financial discipline exemplified through a durable balance sheet
  - A strong free cash flow profile that supports compounding of value
- A strict sell discipline can help to preserve capital by remaining objective.

## Portfolio Construction

- 60 to 80 stocks in portfolio
- Maximum active weight: approximately 3 %
- Maximum sector weight variance of 5% relative to Russell® 1000 Value Index
- Cash is typically kept to less than 5 % of the portfolio
