[Too Big to Ignore: The Momentum Factor](#)

May 22, 2024

KEY POINTS

- [1. Over the short term \(nine months\), the momentum factor is at a level occurring only 3% of the time since 1995, when factors began being measured.](#)
- [2. We believe it's important to focus on why the dominance of momentum factors impacting performance is at a high.](#)
- [3. We believe a broadening of the market, which has slowly begun over the last few months, is very likely to continue.](#)

Regenerative Agriculture - A Rising Solution

May 21, 2024

When Calvert assesses how biodiversity may impact the food production ecosystem, we like to consider how Food and Agricultural Products companies are implementing solutions to mitigate the effects of issues such as land degradation soil erosion and soil health. Regenerative agriculture is a practice Calvert believes can solve the growing global food supply issue and improve the operational and financial performance of companies.

No capex, no cry

May 8, 2024

KEY POINTS

1. India's standout growth story is garnering increased attention among emerging markets investors.
2. Optimistic households are borrowing more, causing some concern over the build-up of "China-like" debt risks.
3. While higher private capex would help boost economic activity, the current growth trend appears stable and offers potential upside for fixed income investors.
