

Global Macro Absolute Return Advantage Strategy

Investment Overview

Our investment team seeks to capitalise on inefficiencies across developed, emerging and frontier markets. Sources of return are drawn from a diverse set of assets.

- Fundamental discretionary Global Macro strategy.
- Three objectives: return in excess of 3-Month U.S. Treasury Bill rates, annualized standard deviation similar or lower than excess return, near zero beta to traditional sources of systematic investment risk.
- Portfolio consists primarily of long and short sovereign positions across currencies, sovereign credit, and interest rates.
- The investment process combines bottom-up investment decisions, top-down risk measurement and risk management throughout the process.

Portfolio Construction
