[Election Cycle is Very Likely to Impact Stocks](#)

By: Aaron Dunn, CFA | & Bradley Galko, CFA | February 14, 2024

KEY POINTS

1. During presidential election years over most of the last century, on average both U.S. large- and small-cap value have outperformed their growth peers.
2. Value vs. Growth's dominance in election years also correlates with U.S. gross domestic product (GDP) growth and detraction.
3. Incumbent candidates and parties keen to win reelection seek to make voters feel financially secure when heading to the polls.

## [Postcard from Ghana: The Cocoa Supply Chain Risk for Multinational Chocolate Producers](#)

By: Jennifer Byron, CFA | & Christopher M. Dyer, CFA | February 2, 2024

### KEY POINTS

1. We believe cocoa farmers must earn a living income to end child labor and deforestation.
2. Cocoa farmers are up against formidable forces along the supply chain and have little or no bargaining power on price.
3. Profit margins could be impacted if the price of cocoa soars, as farmers opt out for other sources of income.

## [2024 Outlook: International Equity](#)

By: Bruno Paulson | December 15, 2023

### Compounding Through the Hype with High Quality Equities

#### KEY POINTS

1. MSCI World Index's current forward multiple does not look cheap, particularly as it is based on an arguably optimistic, double-digit earnings growth assumption for 2024. Our view is that the possibility of a downturn is not reflected in today's earnings expectations, nor in the current market multiple.
2. We seek to avoid the permanent destruction of capital by focusing on high quality,<sup>1</sup> reasonably priced companies with earnings resilience and by resisting the urge to get caught up in potentially detrimental speculative bubbles.
3. Looking beyond the "Magnificent 7" stocks, we believe there will be "slow burners" for whom the benefits of generative artificial intelligence (GenAI), and AI in general, will take longer to emerge but could be significant over time. We believe these GenAI model users will be able to generate value for customers and/or reduce costs by virtue of their "Walled Gardens."

## [2024 Outlook: Value Equity](#)

By: Aaron Dunn, CFA | & Bradley Galko, CFA | December 11, 2023

### Normalization of Supply Chains May Create Opportunity for Value Investors

#### KEY POINTS

1. While inventory destocking has been deep and painful, we believe the slate is now clean for companies in sectors that have been beaten down due to this phenomenon. We also continue to closely watch what we term the GLP-1 (or weight-loss drug) reversion trade — our assumption being that consumer goods companies will still have a place when the dust settles.

- 2. We're focusing on company-specific opportunities within the industrials, basic materials, semiconductors, consumer and utilities sectors.
- 3. We believe rates will be higher for longer, and a balanced approach among equity allocations will be key in this regime where risk has a price.

[Little Known Current Facts About U.S. Equity Investing](#)

By: Aaron Dunn, CFA | & Bradley Galko, CFA | October 31, 2023

KEY POINTS

- 1. On a three-year annualized basis, value is outperforming growth by over 3%.
- 2. Seeking out undervalued securities has continuously paid off for the past century.
- 3. We look beyond how the "Magnificent Seven" have lived up to their name this year.
