Value Investors May Find Opportunities among Generational Shifts

Boston - Value stocks are at an unprecedented valuation discount relative to growth stocks. We believe, despite some potential uncertainty ahead, there may be significant, generational opportunities for alpha¹ creation for value investors in today's markets.

Seizing Opportunity with Value Equity in 2022

Boston - Our research shows that value equity indexes —with their heavy weighting of cyclically sensitive sectors such as finance, energy and basic materials — tend to outperform during expansionary, reflationary economic periods. Today, the implied yield curve may well be signaling the start of another U.S. economic expansion — a positive portent for value equities. We believe that adding some value equity as a diversification¹ hedge against other more correlated assets will ultimately prove to be a path to building better outcomes.
