

Parametric TABS 1-to-10 Year Laddered Municipal Bond Fund (I)¹

A laddered approach to municipal bond investing.

Share Class

EILBX

Symbol

\$10.80 \$0.00

NAV as of Feb 26, 2021

Fact Sheet

Dec 31, 2020

Rules-Based Ladder Allocation

The Fund provides a rules-based approach to municipal bond maturity allocation. Approximately equally weighted maturity sleeves are constructed across the 1-10 year yield curve,² with the objective of seeking current income exempt from regular federal income tax. The structure is designed to provide investors with core exposure to the municipal bond market.

Value Added Through Management

With an emphasis on credit analysis and selection, our credit research team identifies attractively valued securities as permitted by the prospectus. Continuous tax-management seeks to minimize capital gains distributions and increase tax-efficiency.

Portfolio Fit

For investors concerned about rising interest rates, a rules-based, laddered strategy may provide them with predictability of income and return. The Fund can be an investor's core exposure to the municipal bond market or serve as a complement to a broader bond portfolio.

Overview

Approximately equal-weighted across the target 1- to 10-year range.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. The share class has no sales charge.

About Risk:

The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. There generally is limited public information about municipal issuers. As interest rates rise, the value of certain income investments is likely to decline. Investments in debt instruments may be affected by changes in the creditworthiness of the issuer and are subject to the risk of non-payment of principal and interest. The value of income securities also may decline because of real or perceived concerns about the issuer's ability to make principal and interest payments. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the [Fund prospectus](#) for a complete description.

1. Prior to 01/15/2020, Fund was called Eaton Vance TABS 1-to-10 Year Laddered Municipal Bond Fund. Please see prospectus for more details.
 2. Yield curve is a graphical representation of the yields offered by bonds of various maturities. The yield curve flattens when long-term rates fall and/or short-term rates increase, and the yield curve steepens when long-term rates increase and/or short-term rates fall.
 3. Bloomberg Barclays Municipal Short-Intermediate 1-10 Year Index is an unmanaged index of municipal bonds traded in the U.S. with maturities ranging from 1-10 years. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund.
 4. Source: Fund prospectus.
 5. Net expense ratio reflects a contractual expense reimbursement that continues through 5/31/21. Without the reimbursement, if applicable, performance would have been lower.
 6. Top 10 Holdings excludes cash and equivalents.
 7. Percent of total net assets.

Morningstar Rating™

as of Jan 31, 2021

Time Period	Rating	Funds in Muni National Short Category
Overall	★★★★★	201
3 Years	★★★★★	201
5 Years	★★★★★	178

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds and exchange-traded funds) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Star ratings do not reflect the effect of any applicable sales load. Hollow stars denote Morningstar Extended Performance Ratings and are considered estimates based on the performance of the fund's oldest share class, adjusted for fees and expenses.

3. Bloomberg Barclays Municipal Short-Intermediate 1-10 Year Index is an unmanaged index of municipal bonds traded in the U.S. with maturities ranging from 1-10 years. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund.

4. Source: Fund prospectus.

5. Net expense ratio reflects a contractual expense reimbursement that continues through 5/31/21. Without the reimbursement, if applicable, performance would have been lower.

8. The Morningstar Muni National Interm Category includes funds that invest in bonds issued by state and local governments that are free from federal taxes and typically have a duration between 4.5 and 7.0 years.

9. SEC 30-day yield is a standardized measure based on the estimated yield to maturity of a fund's investments over a 30-day period and

is based on the maximum offer price at the date specified. The SEC 30-day yield is not based on the distributions made by the fund, which may differ. Subsidized yield reflects the effect of fee waivers and expense reimbursements. Distribution Rate at NAV is calculated by dividing the last distribution paid per share (annualized) by NAV. The Fund's monthly distribution may be comprised of ordinary income, net realized capital gains and returns of capital.

10. The Fund's distributions may be comprised of tax-exempt income, ordinary income, net realized capital gains and return of capital. The Fund will determine the tax characteristics of all Fund distributions after the end of the calendar year and will provide shareholders such information at that time. Please consult your tax advisor for further information.

Ratings are based on Moody's, S&P or Fitch, as applicable. If securities are rated differently by the ratings agencies, the highest rating is applied. Ratings, which are subject to change, apply to the creditworthiness of the issuers of the underlying securities and not to the Fund or its shares. Credit ratings measure the quality of a bond based on the issuer's creditworthiness, with ratings ranging from AAA, being the highest, to D, being the lowest based on S&P's measures. Ratings of BBB or higher by S&P or Fitch (Baa or higher by Moody's) are considered to be investment-grade quality. Credit ratings are based largely on the ratings agency's analysis at the time of rating. The rating assigned to any particular security is not necessarily a reflection of the issuer's current financial condition and does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security. Holdings designated as "Not Rated" are not rated by the national ratings agencies stated above.

James H. Evans, CFA
Chief Investment Officer, Fixed
Income of Parametric
Joined Eaton Vance 2008
Joined Parametric 2019

Biography

James Evans is chief investment officer, fixed income at Parametric Portfolio Associates LLC, an investment adviser and majority-owned subsidiary of Eaton Vance Corp. He directs all aspects of Parametric's fixed income strategies. He joined Parametric in 2019 from Eaton Vance when Eaton Vance's tax-advantaged bond strategies (TABS) business shifted to Parametric.

Jim began his career in the investment management industry in 1983. Before joining Parametric, he was director of tax-advantaged bond strategies (TABS) and a portfolio manager at Eaton Vance. He joined Eaton Vance in 2008 when it acquired the Tax Advantaged Bond Strategies (TABS) business of M.D. Sass, where he managed municipal bond portfolios. Previously, he was vice president of municipal arbitrage at Kidder, Peabody & Company and a municipal bond trader and underwriter at Continental Bank and Mellon Bank.

Jim earned a B.S. in engineering from Cornell University. He is a CFA charterholder. Jim's commentary has appeared in Bloomberg, The Bond Buyer and Barron's, among other publications.
