Investment Tax Calculator

The Fund

The Fund seeks long-term after-tax returns. Managers believe the principles of tax-efficient investing are principles of sound investing. The cornerstones of the Fund's investment approach are deep fundamental research, risk awareness and tax sensitivity.

The Approach

Managers seek companies with characteristics such as strong balance sheets and leading market share positions that trade at discounted valuations. Tax-management strategies are employed to help minimize distributions.

The Features

Eaton Vance has over 45 years of experience in tax-managed equity investing. Managers evaluate buy and sell decisions in the context of balancing investment and tax considerations.

Historical Returns (%)

as of Mar 31, 2021

05/31/2021

03/31/2021

05/31/2021

Fund at NAV	1.25	10.79	15.09	40.10	13.65	13.47	11.41
Return After Taxes on Dist	—	—	—	39.67	13.30	13.12	10.59
Return After Taxes on Dist & Sales of Fund Shares	—	—	—	24.08	11.10	11.15	9.45

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. After-tax returns are calculated using certain assumptions, including using the highest individual federal income tax rates in effect at the time of the distributions and do not reflect the impact of state/local taxes. Actual after-tax returns depend on a shareholder's tax situation and the actual characterization of distributions and may differ from those shown. After-tax returns are not relevant to shareholders who hold shares in tax-deferred accounts or shares held by nontaxable entities. Return After Taxes on Distributions may be the same as Return Before Taxes for the same period because no taxable distributions were made during that period. Return After Taxes on Distributions and Sale of Fund Shares may be greater than or equal to Return After Taxes on Distributions for the same period because of losses realized on the sale of Fund shares. Before-tax and after-tax returns for other classes of shares offered by the Fund are different. Total return prior to the commencement of the class reflects returns of another Fund class. Prior returns are adjusted to reflect applicable sales charge (but were not adjusted for other expenses). If adjusted for other expenses, returns would be lower. The share class has no sales charge.

Morningstar Rating™

as of May 31, 2021

Time Period	Rating	Funds in Large Value Category
Overall	★★★★★	1140
3 Years	★★★★★	1140
5 Years	★★★★★	1009
10 Years	★★★★★	736

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds and exchange-traded funds) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Star ratings do not reflect the effect of any applicable sales load. Hollow stars denote Morningstar Extended Performance Ratings and are considered estimates based on the performance of the fund's oldest share class, adjusted for fees and expenses.

About Risk:

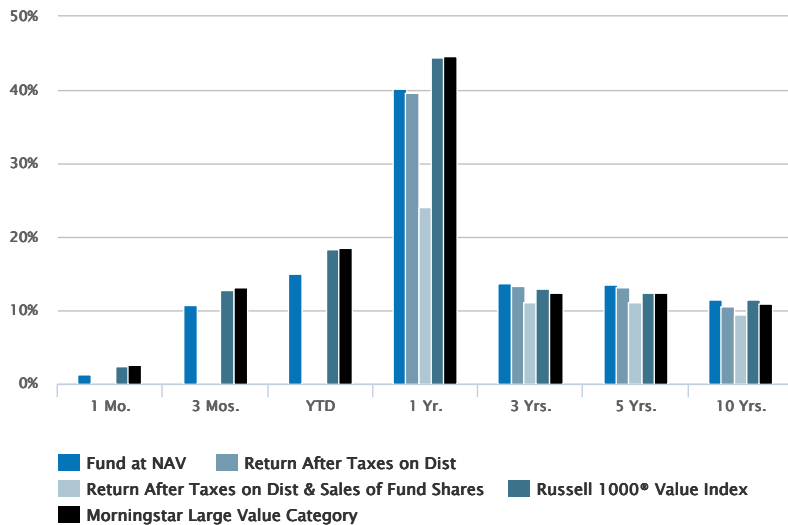

The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. Market conditions may limit the ability to generate tax losses or to generate dividend income taxed at favorable tax rates. The Fund's ability to utilize various tax-managed techniques may be curtailed or eliminated by tax legislation regulation or interpretation. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the [Fund prospectus](#) for a complete description.

1. Russell 1000® Value Index is an unmanaged index of U.S. large-cap value stocks. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund.

1. Russell 1000® Value Index is an unmanaged index of U.S. large-cap value stocks. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund.

2. Source: Fund prospectus.

5. The Morningstar Large Value Category includes funds that invest primarily in U.S. large-cap companies with value characteristics such as low price ratios and high dividend yields.

6. Alpha measures risk-adjusted performance, showing excess return delivered at the same risk level as the benchmark. Beta measures the volatility of a fund relative to the overall market. R-Squared represents the percentage of the portfolio's movement that can be explained by the general movement of the market. Standard deviation measures the historic volatility of a fund. Sharpe Ratio uses standard deviation and excess return to determine reward per unit of risk.

7. A portion of the Fund's returns may be comprised of return of capital or short term capital gains. The Fund will determine the tax characteristics of all Fund distributions after the end of the calendar year and will provide shareholders such information at that time. Please consult your tax advisor for further information.

Edward J. Perkin, CFA
Vice President, Chief Equity
Investment Officer
Eaton Vance Management
Joined Eaton Vance 2014

Biography

Eddie Perkin is a vice president of Eaton Vance Management and chief equity investment officer. He is responsible for all equity disciplines at Eaton Vance. Additionally, he serves as lead portfolio manager of Eaton Vance's large-cap value strategy and is responsible for buy and sell decisions, portfolio construction and risk management for the firm's large-cap value equity portfolios. He is head of the firm's Equity Strategy Committee and a member of the Eaton Vance Management Committee. He joined Eaton Vance in 2014.

Eddie began his career in the finance industry in 1993. Before joining Eaton Vance, he served as chief investment officer (international and emerging-market equity) as well as managing director/portfolio manager (Europe, EAFE and Global) at Goldman Sachs Asset Management (GSAM) in London. Before relocating to London in 2008, Eddie was a portfolio manager and analyst on GSAM's U.S. value equity team in New York. Eddie was previously associated with FISERV and American Retirement Insurance Services.

Eddie earned a B.A. from the University of California, Santa Barbara, and an MBA from Columbia Business School. He is a CFA charterholder and is a member of the board of directors of Junior Achievement of Northern New England.

Eaton Vance is part of Morgan Stanley Investment Management, the asset management division of Morgan Stanley.

This image indicates content designed specifically for Financial Advisors / Investment Professionals. This material is not to be used with the public.

Before investing in any Eaton Vance fund, prospective investors should consider carefully the investment objective(s), risks, and charges and expenses. For open-end mutual funds, the current prospectus contains this and other information. To obtain a mutual fund prospectus or summary prospectus and the most recent annual and semiannual shareholder reports, contact your financial advisor or [download a copy here](#). Read the prospectus carefully before you invest or send money. For closed-end funds, you should contact your financial advisor. To obtain the most recent annual and semi-annual shareholder report for a closed-end fund contact your financial advisor or [download a copy here](#). Before purchasing any variable product, consider the objectives, risks, charges, and expenses associated with the underlying investment option(s) and those of the product itself. For a prospectus containing this and other information, contact your investment or insurance professional. Read the prospectus carefully before investing.
