The Fund

Unconstrained to a traditional benchmark, Fund managers scour the globe in search of investment opportunities both long and short. Implements a flexible approach to investing across the emerging and developed markets, providing global exposure that may help counterbalance performance swings in conventional holdings.

The Approach

Eaton Vance applies its global macroeconomic and political research process in directing Fund investments. This time-tested process informs long and short positions in sovereign asset classes, such as foreign currencies and sovereign credit markets. Managers consider relative risk and return in managing exposures.

The Features

A flexible mandate translates into investment opportunities in both improving and deteriorating markets. Potential for low volatility and managed with an eye toward risk-adjusted returns. Expected low beta may help the Fund complement traditional holdings. Managed by Eaton Vance, a global investing leader.

Overview

Relative to traditional markets, historically this fund has had: lower volatility, limited drawdown and lower beta.¹

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. The share class has no sales charge.

Fund Facts

as of Jan 31, 2021

Performance Inception	08/31/2010
Investment Objective	Total return
Total Net Assets	\$2.8B
Expense Ratio (Gross) ³	1.47%
Expense Ratio (Net) ^{3,4}	1.29%
Adjusted Expense Ratio (Gross)	1.23%
Adjusted Expense Ratio (Net) ⁴	1.05%
CUSIP	277923264

Adjusted Expense Ratios excludes certain investment expenses such as interest expense from borrowings and repurchase agreements and dividend expense from short sales, incurred directly by the Fund or indirectly through the Fund's investment in underlying Eaton Vance Funds, if applicable none of which are paid to Eaton Vance.

Morningstar Rating™

as of Jan 31, 2021

Time Period	Rating
Overall	★★★★★
3 Years	★★★
5 Years	★★★
10 Years	★★★★★

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (funds) with at least a three-year history. Exchange-traded funds and open-ended funds are excluded for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return metric, which measures a product's monthly excess performance, placing more emphasis on downward volatility. In each product category, the top 10% of products receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

The Overall Morningstar Rating for a managed product is derived from a weighted average of three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are 30% three-year returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 10% three-year rating for 120 or more months of total returns. While the 10-year overall rating is based on the 10-year period, the most recent three-year period actually has the greatest influence on the 10-year rating. Star ratings do not reflect the effect of any applicable sales load. Hollow stars denote a rating based on estimated performance of the fund's oldest share class.

Portfolio profile subject to change due to active management. Percentages may not total 100% due to rounding. Fund primarily invests in an affiliated investment company (Portfolio) with the same objective(s) and policies as the Fund and may also invest directly. References to investments are to the aggregate holdings of the Fund and the Portfolio.

About Risk:

The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The Fund employs an "absolute return" investment approach, benchmarking itself to an index of cash instruments and seeking to achieve returns that are largely independent of broad movements in stocks and bonds. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. In emerging or frontier countries, these risks may be more significant. Investments in debt instruments may be affected by changes in the creditworthiness of the issuer and are subject to the risk of non-payment of principal and interest. The value of income securities also may decline because of real or perceived concerns about the issuer's ability to make principal and interest payments. The Fund's exposure to derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other investments. Derivatives instruments can be highly volatile, result in leverage (which can increase both the risk and return potential of the Fund), and involve risks in addition to the risks of the underlying instrument on which the derivative is based, such as counterparty, correlation and liquidity risk. If a counterparty is unable to honor its commitments, the value of Fund shares may decline and/or the Fund could experience delays in the return of collateral or other assets held by the counterparty. Because the Fund may invest significantly in a particular geographic region or country, value of Fund shares may fluctuate more than a fund with less exposure to such areas. As interest rates rise, the value of certain income investments is likely to decline. The value of commodities investments

will generally be affected by overall market movements and factors specific to a particular industry or commodity, including weather, embargoes, tariffs, or health, political, international and regulatory developments. Investments rated below investment grade (sometimes referred to as "junk") are typically subject to greater price volatility and illiquidity than higher rated investments.

A nondiversified fund may be subject to greater risk by investing in a smaller number of investments than a diversified fund. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the [Fund prospectus](#) for a complete description.

Morningstar Rating™

as of Jan 31, 2021

Time Period	Rating	Funds in Nontraditional Bond Category
Overall	★★★★★	269
3 Years	★★★	269
5 Years	★★★	245
10 Years	★★★★★	94

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds and exchange-traded funds) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Star ratings do not reflect the effect of any applicable sales load. Hollow stars denote Morningstar Extended Performance Ratings and are considered estimates based on the performance of the fund's oldest share class, adjusted for fees and expenses.

4. Net expense ratio reflects a contractual expense reimbursement that continues through 2/28/21. Without the reimbursement, if applicable, performance would have been lower.

5. The Morningstar Nontraditional Bond Category includes funds that pursue strategies divergent in one or more ways from conventional practice in the broader bond-fund universe. This includes funds that invest in bonds with an absolute return focus, which seek to avoid losses and produce returns uncorrelated to the overall bond market, and funds with unconstrained mandates. Typically these strategies tactically manage allocations and often utilize derivatives.

6. A portion of the Fund's returns may be comprised of return of capital or short term capital gains. The Fund will determine the tax characteristics of all Fund distributions after the end of the calendar year and will provide shareholders such information at that time. Please consult your tax advisor for further information.

AA	0.00
A	6.50
BBB	14.44
BB	24.75
B	45.04
CCC or Lower	3.30
Not Rated	0.46

Ratings are based on Moody's, S&P or Fitch, as applicable. If securities are rated differently by the ratings agencies, the highest rating is applied. Ratings, which are subject to change, apply to the creditworthiness of the issuers of the underlying securities and not to the Fund or its shares. Credit ratings measure the quality of a bond based on the issuer's creditworthiness, with ratings ranging from AAA, being the highest, to D, being the lowest based on S&P's measures. Ratings of BBB or higher by S&P or Fitch (Baa or higher by Moody's) are considered to be investment-grade quality. Credit ratings are based largely on the ratings agency's analysis at the time of rating. The rating assigned to any particular security is not necessarily a reflection of the issuer's current financial condition and does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security. Holdings designated as "Not Rated" are not rated by the national ratings agencies stated above.

Vice President, Eaton Vance
Management
Joined Eaton Vance 2003

Biography

Michael Cirami is a vice president of Eaton Vance Management, co-director of global income and portfolio manager on Eaton Vance's global income team. He is responsible for leading the 55-person global income team, as well as for buy and sell decisions, portfolio construction and risk management for the firm's global income strategies. Michael focuses on emerging Europe, the Middle East and Africa. He joined Eaton Vance in 2003.

Michael began his career in the investment management industry in 1998. Before joining Eaton Vance, he was employed at State Street Bank in Boston, Luxemburg and Munich, and with BT&T Asset Management in Zurich.

Michael earned a B.S., cum laude, from Mary Washington College and an MBA with honors from the William E. Simon School at the University of Rochester. He also studied at WHU Otto Beisheim School of Management in Koblenz, Germany. He is a member of the Boston Security Analysts Society, the Boston Committee on Foreign Relations and the Ludwig von Mises Institute. He also serves as a board member and chairman of the investment committee of the Boston Civic Symphony and the University of Mary Washington Foundation. Additionally, he is on the board of overseers for the New England Conservatory. He is a CFA charterholder.

Michael's commentary has appeared in The Wall Street Journal, Barron's, Bloomberg and Reuters. He has been a featured speaker at Schwab, Bloomberg European Debt Crisis and Standard Chartered forums.

Eric Stein, CFA

Chief Investment Officer, Fixed
Income
Joined Eaton Vance 2002; rejoined
the firm in 2008

Biography

Eric Stein is a vice president of Eaton Vance Management and chief investment officer, fixed income. He is responsible for overseeing the management of investment strategies for Eaton Vance Management and its affiliate Calvert Research and Management across the income markets, including floating-rate loans, high-yield bonds, municipal bonds, emerging-market debt, mortgage-backed and asset-backed securities, investment-grade corporate and government bonds, and multi-asset income solutions for individual and institutional accounts. He originally joined Eaton Vance in 2002 and rejoined the company in 2008.

Eric began his career in the investment management industry with Eaton Vance in 2002. Previously at Eaton Vance, he was co-director of global income and a portfolio manager on Eaton Vance's global income team, where he led that team with investment professionals based in Boston, Washington, D.C., London and Singapore. Eric previously worked on the Markets Desk of the Federal Reserve Bank of New York. He has additional experience at Citigroup Alternative Investments.

Eric earned a B.S., cum laude, from Boston University and an MBA, with honors, from the University of Chicago Booth School of Business. He is a term member of the Council on Foreign Relations. He is also a CFA charterholder and a member of the Boston Committee on Foreign Relations, Boston Economic Club, Enterprise Club, AEI Boston Council and the CFA Society Boston. Eric is on the board of overseers of Big Brothers Big Sisters of Massachusetts Bay, where he is also a member of the finance and audit committee.

Eric's commentary has appeared in The New York Times, The Wall Street Journal, Barron's, Financial Times, The Washington Post, Bloomberg, Dow Jones, Reuters, Kiplinger's and The Christian Science Monitor. He has been featured on CNBC, Fox News, Fox Business News, PBS, Bloomberg Radio and Bloomberg TV.
