The Fund

The Fund provides exposure to the shorter duration segment of the high-yield bond market, investing primarily in investments with an expected duration profile of three years or less. Managed for total return, the Fund seeks a combination of both current income and capital appreciation potential. Managed by Eaton Vance, one of America's most experienced high-yield bond managers.

The Approach

Fundamental bottom-up credit research and top-down market analysis are the cornerstones of the Fund's approach. Invests broadly across the shorter duration high-yield bond universe, providing exposure to the high-yield market's many sectors, credit tiers and issuers. A focus on research and lower duration may help provide lower overall risk than other high-yield bond strategies.

The Features

The Fund's investments in shorter duration high-yield bonds and floating-rate loans may help provide investor portfolios' a level of protection in a rising-rate environment, as investments in the Fund's universe have typically performed with low correlation to traditional bond markets. Access to a leader in high-yield bond investment management and a well-defined investment process that has been in place for over 20 years.

Overview

Historical Returns (%)

as of Mar 31, 2024

03/31/2024

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. Total return prior to the commencement of the class reflects returns of the Short Duration High Income Portfolio, the separate registered investment company in which the Fund invests. Prior returns are adjusted to reflect any applicable sales charge (but were not adjusted for other expenses). If adjusted for other expenses, returns would be lower. Max Sales Charge: 3.25%.

Morningstar Rating™

as of Mar 31, 2024

Time Period	Rating	Funds in High Yield Bond Category
Overall	★★★★★	606
3 Years	★★★★★	606

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds and exchange-traded funds) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.

The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Star ratings do not reflect the effect of any applicable sales load. Hollow stars denote Morningstar Extended Performance Ratings and are considered estimates based on the performance of the fund's oldest share class, adjusted for fees and expenses.

Time Period	Rating	Funds in High Yield Bond Category
5 Years	★★★★★	575
10 Years	★★★	432

Portfolio profile subject to change due to active management. Percentages may not total 100% due to rounding.

RISK CONSIDERATIONS

The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. Investments in debt instruments may be affected by changes in the creditworthiness of the issuer and are subject to the risk of non-payment of principal and interest. The value of income securities also may decline because of real or perceived concerns about the issuer's ability to make principal and interest payments. Investments rated below investment grade (sometimes referred to as "junk") are typically subject to greater price volatility and illiquidity than higher rated investments. As interest rates rise, the value of certain income investments is likely to decline. The Fund's exposure to derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other investments. Derivatives instruments can be highly volatile, result in leverage (which can increase both the risk and return potential of the Fund), and involve risks in addition to the risks of the underlying instrument on which the derivative is based, such as counterparty, correlation and liquidity risk. If a counterparty is unable to honor its commitments, the value of Fund shares may decline and/or the Fund could experience delays in the return of collateral or other assets held by the counterparty. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the [Fund prospectus](#) for a complete description.

1. ICE BofA U.S. High Yield Cash Pay BB-B 1-3 Year Index is an unmanaged index of U.S. corporate bonds currently paying a coupon, rated BB1 through B3, and having a maturity less than 3 years.

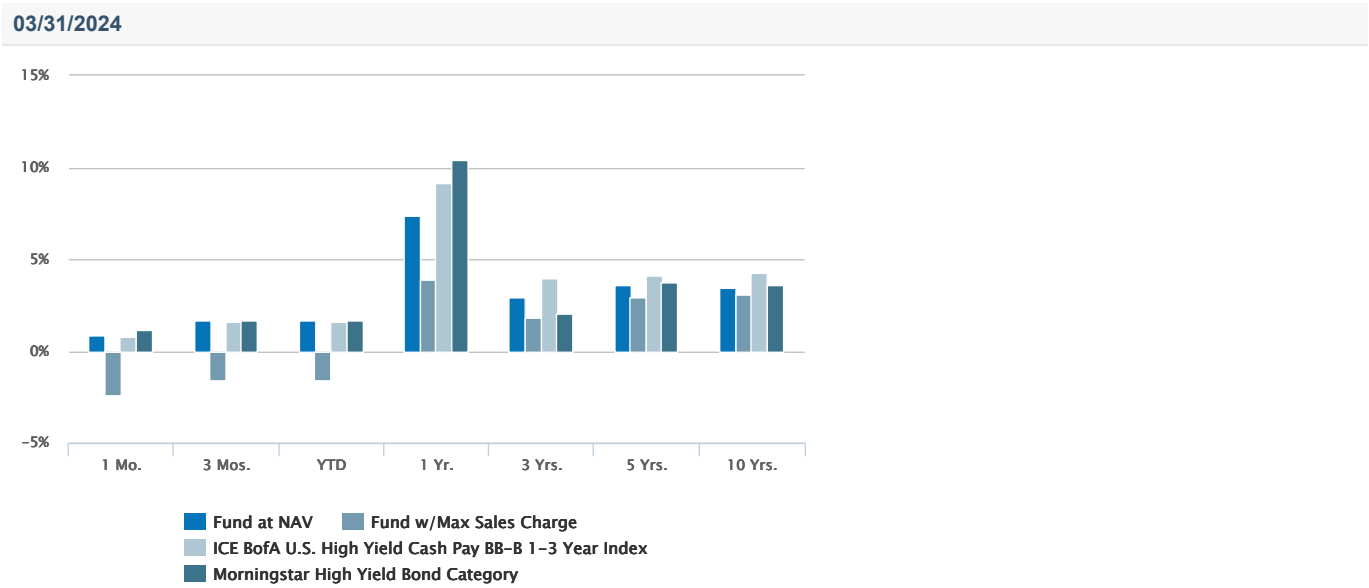

2. Source: Fund prospectus.

3. Net Expense Ratio reflects a contractual expense reimbursement that continues through 3/1/25. Without the reimbursement, if applicable, performance would have been lower.

4. Percent of total net assets.

The Fund may engage in other investment practices that may involve additional risks and you should review the [Fund prospectus](#) for a complete description.

1. ICE BofA U.S. High Yield Cash Pay BB-B 1-3 Year Index is an unmanaged index of U.S. corporate bonds currently paying a coupon, rated BB1 through B3, and having a maturity less than 3 years.

2. Source: Fund prospectus.

3. Net Expense Ratio reflects a contractual expense reimbursement that continues through 3/1/25. Without the reimbursement, if applicable, performance would have been lower.

5. The Morningstar High Yield Bond Category includes funds that invest in lower-quality bonds with typically 65% or more in bonds not rated or rated BB or below by one of the major ratings agencies.

6. SEC 30-day yield is a standardized measure based on the estimated yield to maturity of a fund's investments over a 30-day period and is based on the

maximum offer price at the date specified. The SEC 30-day yield is not based on the distributions made by the fund, which may differ. Subsidized yield reflects the effect of fee waivers and expense reimbursements. Distribution Rate at NAV is calculated by dividing the last distribution paid per share (annualized) by NAV. The Fund's monthly distribution may be comprised of ordinary income, net realized capital gains and returns of capital.

7. A portion of the Fund's returns may be comprised of return of capital or short term capital gains. The Fund will determine the tax characteristics of all Fund distributions after the end of the calendar year and will provide shareholders such information at that time. Please consult your tax advisor for further information.

Credit Quality (%)

as of Mar 31, 2024

03/31/2024

Credit quality ratings on underlying securities of the fund are provided by S&P, Moody's and Fitch. This breakdown assigns a numeric equivalent to the ratings from the aforementioned agencies and the mean is rounded to the nearest integer and converted to an equivalent S&P major rating category. Ratings, which are subject to change, apply to the creditworthiness of the issuers of the underlying securities and not to the Fund or its shares. Credit ratings measure the quality of an issuance based on the issuer's creditworthiness, with ratings ranging from AAA, being the highest, to D, being the lowest based on S&P's measures. Ratings of BBB or higher by S&P or Fitch (Baa or higher by Moody's) are considered to be investment-grade quality. Credit ratings are based largely on the ratings agency's analysis at the time of rating. The rating assigned to any particular security is not necessarily a reflection of the issuer's current financial condition and does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security. Holdings designated as "Not Rated" are not rated by the national ratings agencies stated above.

 This image indicates content designed specifically for Financial Advisors / Investment Professionals. This material is not to be used with the public.

Before investing in any Eaton Vance, Calvert or Morgan Stanley Investment Management Inc.-advised fund, prospective investors should consider carefully the investment objective(s), risks, and charges and expenses. Read the prospectus carefully before you invest or send money. For **open-end mutual funds**, the current prospectus contains this and other information. To obtain an **open-end mutual fund** prospectus or summary prospectus and the most recent annual and semiannual shareholder reports, contact your financial advisor or [download a copy here](#). For **closed-end funds**, you should contact your financial advisor. To obtain the most recent annual and semi-annual shareholder report for a closed-end fund contact your financial advisor or [download a copy here](#). To obtain an **exchange-traded fund**, ("ETF") prospectus or summary prospectus, contact your financial advisor or [download a copy here](#).

Before purchasing any **variable product**, consider the objectives, risks, charges, and expenses associated with the underlying investment option(s) and those of the product itself. For a prospectus containing this and other information, contact your investment or insurance professional. Read the prospectus carefully before investing.
