

FIXED INCOME

Our fixed income team focuses on securities with high credit quality and stable cash flow. We emphasize government issued mortgage-backed securities (MBS), including collateralized mortgage obligations (CMOs), and AAA asset-backed securities (ABS). We feel that these securities can deliver attractive yields while limiting credit and event risk. We seek to add value from security selection, sector allocation and yield curve positioning.

FIXED INCOME

Our fixed income team seeks to limit downside risk and to add value primarily through security selection within the government and AAA rated mortgage-backed and asset-backed security sectors, which historically have offered a substantial yield premium to government securities.
